Executive Profile

Mr Freddy Tan
Managing Director, EPIC Cybersecurity
MSc, CISSP, FAiSP, AVIP, FSCS

Freddy Tan is the Managing Director of EPIC Cybersecurity. He holds a MSc in Information Systems Security awarded from the London School of Economics & Political Science (LSE), University of London, and a Certified Information Systems Security Professional (CISSP) since 2000.

Prior to EPIC Cybersecurity, Freddy held various roles as Sales Lead, Ensign Infosecurity, Assistant Vice President of Business Development for StarHub Cyber Security and SmartHub, Director of Business Development and Solution Architect for Strategic Accounts for Singtel and Chief Security Advisor for Microsoft Asia.

He started his cyber security career with Ministry of Defence (MINDEF) and served for 25 years, where he established the 24x7 Computer Security Monitoring & Investigation Centre (COSMIC) and the Computer Emergency Response Team (SAFCERT).

In addition, Freddy was awarded the (ISC)² President's Award in 2003 by (ISC)² and conferred the Long Service Medal (Pingat Bakti Setia) at the National Day Award in 2007.

Freddy had also served as the Vice President and founding member of the Singapore Association of Information Security Professionals (AISP). He continues to serve at AISP as a co-opted Committee Member. He is also awarded the AiSP Validated Information Security Professional (AVIP) and Fellow of AiSP and Fellow of Singapore Computer Society.
